

**Liliana S. Voto, MD, PhD**  
**Résumé,**

Prof. Liliana S. Voto graduated from the University of Buenos Aires School of Medicine in 1973 and obtained her PhD in medicine from the same university in 1984. She completed her residency in Obstetrics and Gynaecology in 1979 and five years later she joined the faculty of the Buenos Aires University School of Medicine as an Assistant Professor. In 1992 she became a specialist in Public Health (Salvador University). Prof. Voto was appointed as Associate Professor of Obstetrics at Buenos Aires University in 1991 and promoted to Full Professor in 1997. She was also made Full Professor of Obstetrics at Barceló University in Buenos Aires in 1996.

Prof. Voto's main contributions have been in the field of Rh Isoimmunization, Hypertension in Pregnancy and Fetal Therapy. She has been author or co-author in over 40 books and scientific publications, and over 280 important scientific papers and articles. She has attended training courses in Argentina and abroad. She has lectured extensively at both local and international meetings and has organized innumerable national and international congresses: ISUOG (1999); WAMP (1999), the XXIst Fetus as a Patient Congress held in Buenos Aires in April 2005

In 1989 Prof. Voto was fellow and co-investigator at the Department of Obstetrics and Gynaecology, Queen's Medical Centre, University of Nottingham, England. From 1992 to 1993 she was coordinator in Argentina of the collaborative project "Collaborative Low-Dose Aspirin Study in Pregnancy for the Prevention and Treatment of Pre-eclampsia and Intrauterine Growth Retardation" (CLASP), organized in Oxford, England, by a Committee including Drs. C. Redman, M. de Swiet, P. Rubin, E. M. Symonds and M. Elder. From 1993 to 1995 she was Director of the Argentina-England collaborative project "Prevention and promotion of maternal and perinatal health in critically impoverished populations", carried out by Miguel Margulies Foundation for Perinatal Research, the British Council and the British Embassy in Argentina. In 1995 she became a Clinical Investigator for the National Council for Research in Science and Technology (CONICET).

Prof. Voto was the Director of Juan A. Fernández Hospital, Buenos Aires City, Argentina, the reference centre for high risk pregnancy and fetal medicine. She is also the President of Miguel Margulies Foundation for Perinatal Studies, and is the Head of the Institute of Fetal Medicine and High-Risk Pregnancy (named after her) in Buenos Aires city. In addition to these positions, she is an active member of both national and international scientific societies.

Apart from the numerous awards Prof Voto has received for her invaluable scientific work, she has been presented with two special awards for her outstanding performance as Director of Juan A. Fernández Hospital: Award of the Argentine Society of Occupational Medicine to her work as

Director of Juan A. Fernández Hospital during the deep socio-economic crisis, November 27, 2002, and “Quality Management in Health”, granted by the Secretariat of Health, Government of the City of Buenos Aires, November 19, 2003 and the “Rosa de Plata Award” granted for the Argentine National Parliament for her active work in maternal and fetal health (2007).

In 2008 she became an Associate Member of the International Academy Of Perinatal Medicine (President: Prof.Erich Saling) at Cornell University, New York).-
